About the Lost Wax process

Because each piece is produced from a custom-made mold that must be broken to get the sculpture out, no two are exactly the same contributing to the value and uniqueness of the sculpture.

The Mosaic Series

Mosiac urns are made from combining some of the most beautiful natural stones. These urns are hand crafted using the newest innovative techniques. The deep and rich colors of each vessel will vary, sometimes taking on a deep and rich color while at other times the colors will be subtle yet glorious. As with the tapestries of art, each piece truly depicts the beauty of the stone.

Sand Urns

Single Inurnment: 9 in. H x 7.5 in. Dia., Volume: 200 cu. in.
Mini: 5.25 in. H x 5 in. Dia., Volume: 50 cu. in.

Sand Urns are produced using sustainable materials to create an attractive and Environmentally-Friendly alternative for families. Each urn is hand painted by skilled artisans. When buried in the ground, the urn will biodegrade within three months. Once placed in water, the urn will break down withing three days.

Biodegradable Cremation Urns

The Journey/Shell Earthurns are perfect for Ocean or Deep Water Burial. Fabricated by hand from recycled and earth-friendly materials. These urns will float momentarily and then sink gracefully. Once on the ocean floor, the urn will dissolve naturally over time. Includes a water-soluble plastic bag which dissolves on contact with water, allowing the cremated remains to be dispersed within minutes. The time each Earthurn takes to break down will vary depending on climatic conditions.

American Kennel Club™ Urn

The AKC urn features burnished copper and bronze die-cast aluminum. The base has a highly-polished clear coat finish offering the appearance of wood. The AKC logo is embossed on the face of the metal casing. A photo window has been designed into the top of the urn so that the owner can insert a favorite photo of the pet. Metallic nameplate provided with the urn.
